The Circuit Civil division also includes other statistics such as clearance rates, reopenings, and appeals filed from county court. **These data are provided by the 67 clerks of court. However, dispositions and special proceedings data are not audited for accuracy by the OSCA.**

**Clearance Rate** - The clearance rate is a useful measure of the responsiveness of a court to the demand for services, and is nationally recognized as a measure of court performance. The rate is determined by taking the total number of cases *disposed* divided by the total number of cases *filed* during a specific time period. If a court received 1,000 new cases a month and disposed of 900 cases within the same month, the clearance rate for that month would be 90%.

**Reopening** - A reopening occurs when a case that has previously been reported as disposed is resubmitted to the court through a motion or petition.

**Appeal Filed From County Court** - An appeal filed from county court is a request that a case be removed from the county court and sent to the circuit court for review.
