Florida State Courts System
Class Specification

Class Title: Senior Information Systems Analyst

Class Code: 4110
Pay Grade: 105

General Description

The essential function of the position within the organization is to lead in providing computer programming support. The position is responsible for developing, designing, and providing programming support, handling miscellaneous ad hoc computer programming and database administration requests, and assisting other departmental programming personnel with assignments. The position works under general supervision independently developing work methods and sequences.

Examples of Work Performed

(Note: The examples of work as listed in this class specification are not necessarily descriptive of any one position in the class. The omission of specific statements does not preclude management from assigning specific duties not listed herein if such duties are a logical assignment to the position.)

Leads in designing, analyzing, developing, implementing, testing and maintaining computer programs to allow users to enter, update and delete data in databases.

Handles ad hoc computer assignments as required.

Provides guidance and direction and assists other departmental programmers as required to facilitate efficient completion of departmental tasks/projects.

Conducts research to discover new methodologies and enhancements for users of the State Courts information system; plans and develops system requirements and enhancements.

Stays abreast of the latest computer protocol and technology on the market; assists with technical aspects of ongoing software evaluations.

Attends staff meetings to exchange information; attends technical or professional classes, workshops or seminars to improve professional skills.
SENIOR INFORMATION SYSTEMS ANALYST

Competencies

Data Responsibility:
Refers to information, knowledge, and conceptions obtained by observation, investigation, interpretation, visualization, and mental creation. Data are intangible and include numbers, words, symbols, ideas, concepts, and oral verbalizations.

Directs others in major events and reports on activities and results.

People Responsibility:
Refers to individuals who have contact with or are influenced by the position.

Persuades or influences others in favor of a service, course of action, or point of view.

Assets Responsibility:
Refers to the responsibility for achieving economies or preventing loss within the organization.

Requires minimum responsibility for only small quantities of low cost items or supplies where opportunities for achieving economies or preventing loss are negligible.

Mathematical Requirements:
Deals with quantities, magnitudes, and forms and their relationships and attributes by the use of numbers and symbols.

Uses practical application of fractions, percentages, ratios and proportions, measurements, or logarithms; may use algebraic solutions of equations and equalities, deductive geometry, and/or descriptive statistics.

Communications Requirements:
Involves the ability to read, write, and speak.

Reads and interprets advanced professional materials; writes complex reports; speaks to high level professional personnel.

Complexity of Work:
Addresses the analysis, initiative, ingenuity, creativity, and concentration required by the position and the presence of any unusual pressures.

Performs work involving the application of principles of logical thinking, technological or legal practice to diagnose or define problems, collect data and solve abstract problems with widespread unit or organization impact; requires sustained, intense concentration for accurate results and continuous exposure to unusual pressure.
SENIOR INFORMATION SYSTEMS ANALYST

**Impact of Decisions:**
Refers to consequences such as damage to property, loss of data or property, exposure of the organization to legal liability, or injury or death to individuals.

Makes decisions with moderate impact - affects those in work unit.

**Equipment Usage:**
Refers to inanimate objects such as substances, materials, machines, tools, equipment, work aids, or products. A thing is tangible and has shape, form, and other physical characteristics.

Leads or handles machines, tools, equipment or work aids involving moderate latitude for judgment regarding attainment of a standard or in selecting appropriate items, such as computer hardware.

**Safety of Others:**
Refers to the responsibility for other people’s safety, either inherent in the job or to assure the safety of the general public.

Requires some responsibility for safety and health of others and/or for occasional enforcement of the standards of public safety or health.

**Education and Experience**

**Education:**
Refers to job specific training and education that is recommended for entry into the position. Additional relevant experience may substitute for the recommended educational level on a year-for-year basis.

Bachelor’s degree in computer science, management information systems or a closely related field.

**Experience:**
Refers to the amount of related work experience that is recommended for entry into the position that would result in reasonable expectation that the person can perform the required tasks. Additional relevant education may substitute for the recommended experience on a year-for-year basis, excluding supervisory experience.

Three years of related experience.

**Licenses, Certifications, and Registrations Required:**
Refers to professional, state, or federal licenses, certifications, or registrations required to enter the position.

None
