Florida State Courts System
Class Specification

Class Title: User Support Analyst

Class Code: 4210

Pay Grade: 101

General Description

The essential function of the position within the organization is to maintain, troubleshoot and provide assistance with operations of Windows servers, workstations and telephones. The position is responsible for supporting networks, assisting end users in maintaining web/intranet site content, supporting system user computer needs, troubleshooting and upgrading hardware and software, maintaining the Courts System e-mail operations, monitoring network backup, monitoring virus protection functions, and researching new technology. The position works under general supervision of a Senior User Support Analyst or independently developing work methods and sequences.

Examples of Work Performed:

(Note: The examples of work as listed in this class specification are not necessarily descriptive of any one position in the class. The omission of specific statements does not preclude management from assigning specific duties not listed herein if such duties are a logical assignment to the position.)

Troubleshoots, analyzes and resolves computer hardware, software and communication problems; uses diagnostic software and technical troubleshooting processes; corrects and reports any anomalies.

Troubleshoots, analyzes and resolves VoIP (IP Telephony) hardware and software problems/issues; uses diagnostic software and technical troubleshooting processes; work with network staff to resolve problems as required.

Maintains the Courts System e-mail operations; adds new users to the domain and monitors daily operations.

Manages PC’s and laptops; installs, configures and provides support for desktops, laptops, printers and peripherals; provides user training as required.

Provides software and hardware upgrades to ensure efficient system operations for users.
USER SUPPORT ANALYST

Researches and installs new software on workstations as needed; manages and programs network telephone systems; adds/configures new users and troubleshoots mailbox problems.

Performs/monitors network backup; manages virus protection functions to ensure security of the system.

Assists End Users with maintaining the Courts System web and intranet sites, including publishing court documents online and updating sites.

Supports miscellaneous equipment, such as audio-visual; court cell phones, laptops, troubleshoots and corrects problems.

Performs clerical tasks, such as maintaining records of computer equipment of responsibility, preparing requisitions or memoranda, or preparing routine or special activity reports.
